

AUXWATCH

USER GUIDE

WHAT IS AUXWATCH?

AUXWATCH is an Excel report that graphically displays a wide range of metrics at the national, district, division, and flotilla levels.

AUXWATCH

April 2026

Bar tops in past years denote full year values
Darker bars denote year to date values

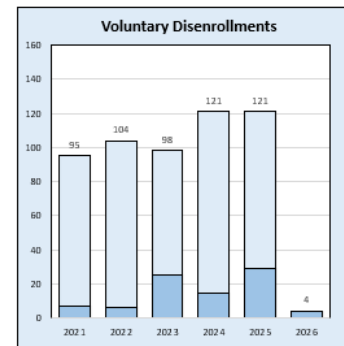

For each year to date, all work in AUXDATA II is shown if performed before the first day of April and approved.

Membership numbers are as of the first day of April for each reported year.

Facility numbers are as of the first day of April for the current year, and End-of-Year for previous years.

For best viewing, display this tab at 80%. Use the Zoom bar on the bottom right of your screen.

AUXWATCH UPDATES

AUXWATCH is updated early every month.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	31					

MAC TACTICS

Macs running Windows for Mac can load and run **AUXWATCH**. For those running “Native Mac,” we have a parallel product called

AUXWATCH SUMMARY

This product has all of the same resource and workload metrics, and presents them with a focus on the national and district levels.

RUNNING A TAB

At the bottom of all **AUXWATCH** pages is a row of colored tabs. After you've selected a district on the Front Page, you can view the corresponding graphs by using these tabs.

RUNNING A TAB

These highlighted tabs will show your selected district's breakdown... from the district level down to the division and flotilla levels.

A WORD ABOUT COLORS

This Program Visits chart is from September 2025.

A WORD ABOUT COLORS

The lighter color in each bar shows the work performed January through December during every past full year

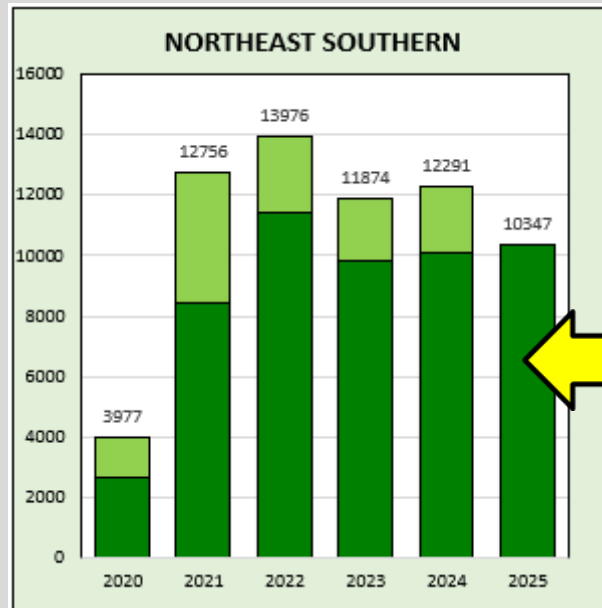

A WORD ABOUT COLORS

The darker color shows the first nine months of each year, since this is from a September report.

A WORD ABOUT COLORS

The current year is *always* dark.
There is no completed year, so there is no lighter color in that bar.

A WORD ABOUT COLORS

In summary, the two colors show how the unit is doing compared to this time of year in each of the previous five years, along with the annual totals in each of the previous five years.

AUXWATCH IS INTERACTIVE

Use the Main Page tab to Specify Which District's Units you want to View

AUXWATCH

April 2026

DISTRICT SELECTION

Click here to select district

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

ON

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

AUXWATCH IS INTERACTIVE

In the long yellow box, select your District

AUXWATCH

April 2026

DISTRICT SELECTION

081 8TH DISTRICT COASTAL

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

ON

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

When **ON**, all divisions have the same vertical scale, and all flotillas grouped in the same division have the same vertical scale. This feature allows easy visual comparison between units.

DISTRICT BREAKDOWN PAGES

All of a district's flotillas appear in unit number order, (and in the same color scheme) below the Division Bullpen. Up to 100 flotillas can be displayed.

DISTRICT BREAKDOWN PAGES

Does the district have less than 100 flotillas? The unassigned graphs will be empty.

DISTRICT BREAKDOWN PAGES

With 112 populated and empty graphs on every district breakdown page, be prepared to do lots of scrolling over and down!

TWO KINDS OF VIEWS

You can either use the *same* vertical axis scale, or let each unit generate its own vertical axis to fill up its graph. Both views are each useful in their own way.

AUXWATCH

April 2026

DISTRICT SELECTION

013 FIRST DISTRICT NORTHERN REGION

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

OFF

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

When **ON**, all divisions have the same vertical scale, and all flotillas grouped in the same division have the same vertical scale. This feature allows easy visual comparison between units.

TWO KINDS OF VIEWS

You can specify uniform vertical scaling with this drop-down bar.

AUXWATCH

April 2026

DISTRICT SELECTION

013 FIRST DISTRICT NORTHERN REGION

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

OFF

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

When **ON**, all divisions have the same vertical scale, and all flotillas grouped in the same division have the same vertical scale. This feature allows easy visual comparison between units.

TWO KINDS OF VIEWS

In this example, we are **not** using uniform vertical scaling. Wyckoff's chart tops out at 1800. In nearby Caldwell, their chart tops out at 70. This view is good for seeing year to year trends within each division or flotilla.

TWO KINDS OF VIEWS

What if we want to *compare* units to each other? For that, use the *same* vertical scale. So, activate uniform vertical scaling on the Main Page.

AUXWATCH

April 2026

DISTRICT SELECTION

013 FIRST DISTRICT NORTHERN REGION

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

OFF

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

When **ON**, all divisions have the same vertical scale, and all flotillas grouped in the same division have the same vertical scale. This feature allows easy visual comparison between units.

TWO KINDS OF VIEWS

Uniform Vertical Scaling is now **ON**.

AUXWATCH

April 2026

DISTRICT SELECTION

013 FIRST DISTRICT NORTHERN REGION

1. Left-click anywhere in the yellow box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on that to select a district.

District selections can be changed at any time.

UNIFORM VERTICAL SCALING

ON

1. Left-click anywhere in the box above.
2. When the little gray drop-down-graphic appears on the right side, left-click on it to select ON or OFF.

When **ON**, all divisions have the same vertical scale, and all flotillas grouped in the same division have the same vertical scale. This feature allows easy visual comparison between units.

TWO KINDS OF VIEWS

With Uniform Vertical Scaling activated, our view will change from this...

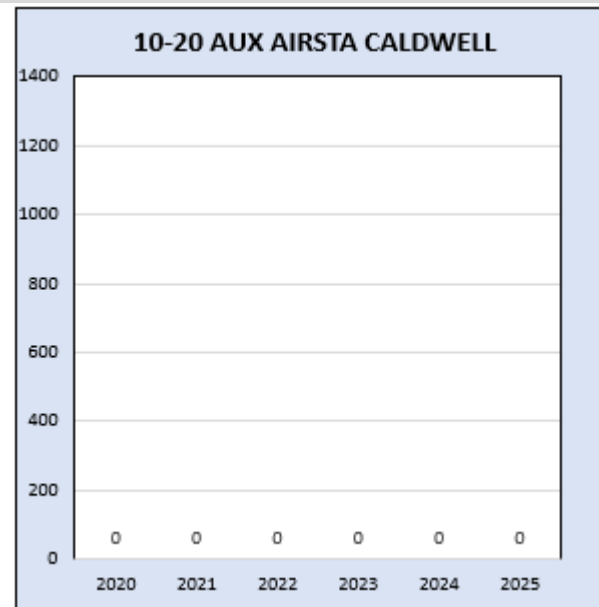

TWO KINDS OF VIEWS

...to *this*! Both graphs shown here now have the **same** vertical scale. The data points are exactly the same as seen in the previous slide, but the graphs together now present the data in a different perspective.

COMING UP EMPTY

Sometimes, a flotilla will log no hours at all in a particular activity. Unsurprisingly, Air Station Caldwell has performed no surface patrols.

GETTING SNIPPY

Both Windows and macOS come with an onboard snipping tool. With this utility, you can cut AUXWATCH graphs for pasting into other presentations.

PUTTING **AUXWATCH** AWAY

You can save your **AUXWATCH** file to your PC with or without any district or scaling selections specified.

If the file is ever lost or damaged, you can download the current month's report at the national website. No charge!
